### TOGETHER WE CAN MAKE IT HAPPEN!

The child care movement today is stronger than ever before. For 25 years, the CCAAC has brought together parents, child care workers, researchers, organizations and citizen groups to call for public investment in a high quality, universal and inclusive early learning and child care system accessible to all. Today, our longest standing and most committed members represent well over four million individuals and our advocacy across the country has made us a force to be reckoned with.

Child care is approaching a tipping point and the stakes have never been higher for the future of Canada's families and children. From coast to coast to coast, the issues and values around child care have become the centre of ongoing discussion and debate in media reports, in election debates, and in the House of Commons.

**The time to make it happen is now and we can't do it without you! Join us and become a part of the public demand that brings to Canadians the quality early learning and child care system families need.**
