

Although there is no agreement yet... / Même si l'entente n'a toujours pas été conclue...

CCAAC/ACPSGE 20 Feb 05

Over the last couple of months families, child care workers and advocates from coast to coast to coast have successfully let the federal and provincial/territorial ministers know how important it is to get the building blocks of our new child care system right from the start.

Although there is no agreement yet, we are confident that our efforts are having a positive impact.

Over the coming weeks and months we will continue our work with the federal/provincial/territorial elected representatives until Canada achieves the publicly funded child care system our children and families need.

Stay tuned to the CCAAC web site to keep up to date - photos, articles and more.
